

ZAKI MOHAMMAD

Software Engineer

+962 78 299 4613 • zakemohammad222@gmail.com • linkedin.com/in/zakemohammad/ • Amman, Jordan

CORE COMPETENCIES

Full-Stack Development	.NET / ASP.NET Core	Microservices Architecture	RESTful API Design
C# / OOP Principles	SQL & Oracle Databases	Docker & DevOps	RabbitMQ / Messaging
Entity Framework / Dapper	Angular / TypeScript	SignalR Real-Time	Git & Version Control

PROFESSIONAL EXPERIENCE

Software Developer & Support Specialist | OFFTEC – Integrated Solutions Team | Amman, Jordan | Aug 2025 – Nov 2025

- Maintained and enhanced software applications and integrated solutions for the company and its clients within the Integrated Solutions team.
- Designed and implemented custom software solutions tailored to specific business requirements.
- Provided technical support and troubleshooting for deployed software systems.

Junior Application Developer | PIO-TECH | Amman, Jordan | Sep 2024 – Aug 2025

- Contributed to the development and maintenance of multiple enterprise-level banking solutions, including FTP (Fund Transfer Pricing) and AML (Anti-Money Laundering) systems.
- Handled a wide range of bug fixes and system enhancements, ensuring code quality and system stability across critical financial platforms.
- Utilized C#, ASP.NET, Oracle PL/SQL, and JavaScript in day-to-day development tasks.

PROJECTS

JobFlow – Distributed Job Processing Platform

- Microservices & Messaging: Built a decoupled system using .NET 10 and RabbitMQ to handle high-volume asynchronous background tasks.
- Real-time Monitoring: Implemented a live dashboard using SignalR to provide instant updates on job status transitions.
- DevOps & Containerization: Architected full-stack deployment using Docker & Docker Compose, orchestrating PostgreSQL, RabbitMQ, and .NET services for seamless environment consistency.
